The Trampoline Gymnastics Australian Levels System is a National Program and includes all three apparatus of 10 levels. This system is split into the Levels System and the “Guide to Passing Levels”. All athletes participating in the Trampoline Levels System must be registered members of their State Gymnastic Association. This includes level 1 and level 2 gymnasts.

Whilst the system and guide provides an overall development program for use by both coaches and performers, it is not intended to be the only source of reference for Trampoline Gymnastics. Coaches should ensure that they are competent in the teaching of all Trampoline skills that they present to their athlete.

The ALP levels indicate a measure of competency at each level by the athlete. Club coaches and judges should ensure that their athletes demonstrate these levels of competency for the specified competition. The ALP manual details the routines/passes required for each level and the process of assessment. These documents are available from Gymnastics Australia.

Medals shall be presented to the first three places in each event.

Perpetual trophies shall be presented to competitors on the strict understanding that such competitors shall be responsible for their return at the orientation meeting of the subsequent championships, in good order, clean and ready for presentation at the championships. Under no circumstances may an Australian perpetual trophy be taken from Australia.

Commemorative awards shall be awarded by the National Trampoline Commission to competitors who win the same discipline championship for three years in succession.

5.5.7.3 Team Event
In 2013, The Junior/Senior Team Format was amended to provide a state based team’s event in Individual Trampoline, Double-Mini, and Tumbling at National Championships. The competition format will be similar to a World Championships team final to provide invaluable experience of competing in a team’s event prior to World Championships.

Events:
Six team final events:
- Men’s TRP
- Women’s TRP
- Men’s DMT
- Women’s DMT
- Men’s TUM
- Women’s TUM

Each Australian state or territory is permitted to enter a team in all divisions; no alliance (e.g., UTA) or international team is permitted.

To assist with timetabling, each state must enter provisional teams with the close of definitive entries for National Championships. States are permitted to make amendments to the gymnasts in the team up until the end of training on the day prior to the preliminary round of competition.

Team construction:
Each state is invited to submit one team into the six events specified above. Each team should consist of a minimum of three and a maximum of up to four gymnasts from Youth, Junior and Senior per event.
No more than three gymnasts per team should be taken from the Senior International category.
Competition Format – Preliminary Round:
The preliminary round of competition at National Championships will determine the teams that will compete in the final round. Within the preliminary round, the top three scores for each round of competition will contribute to each team’s total score. Please see below examples:

TRP:
Top 3 compulsory scores
Top 3 voluntary scores

DMT/TUM:
Top 3 scores for Pass 1
Top 3 scores for Pass 2

The top four teams (states) in each category will progress to the Team Final. If there is only one team entered, there will be no Team Final.

Competition Format – Team Final:
A maximum of 16 gymnasts in one flight will compete in each final. All finals will be a zero start. All gymnasts must wear state uniform as per Code of Points.

Trampoline:
Each gymnast in the final will perform one voluntary routine. The gymnasts who competed in the preliminary round of competition must also compete in the team final unless withdrawn from competition. In this case, there can be no substitution of gymnasts and the remaining team members will contribute to the final result. The top three scores per team will contribute to the final team score. The state with the highest total score is the winner.

Double-Mini Tramp/Tumbling:
Each gymnast in the final will perform one pass. The gymnasts who competed in the preliminary round of competition must also compete in the team final unless withdrawn from competition. In this case, there can be no substitution of gymnasts and the remaining team members will contribute to the final result. The top three scores per team will contribute to the final team score. The State with the highest total score is the winner.

5.5.8 Australian Gymnastics Championships - National Age Stream
5.5.8.1 Qualifying For Finals
The best 6 competitors from the preliminaries will participate in the finals. If there are 30 or more residential competitors at the close of definitive entries, then the best 10 competitors will participate in the finals. The finals will also include the top 6 or 10 residential competitors (if 30 or more residential competitors competing at the close of definitive entries).

5.5.8.2 Team Events
For each discipline a team shall be considered as comprising all the competitors, entered by a State Association or United Team Alliance as team members, in each discipline.

Should a State or United Team Alliance have no competitors in a particular age group, they may nominate a substitute event, being the nearest age group, either younger or older, male or female, in which they have more than one competitor available.
No team shall nominate more than two (2) substitute events.

The substitute event nomination must be submitted at the same time as that specified for the submission of routine and pass sheets. No subsequent changes shall be allowed after this time, except in the case of injury or illness and verified by a medical certificate.

A replacement cannot be made once the withdrawing competitor’s event commences.

The score of the team member or synchronised pair in each event, with the highest number of points after the completion of the preliminaries (or the second highest in the case of substitute events), will be considered as the team score for that event. If a substitute event competitor scores higher than the top actual age group competitor, then they will only be credited with a score equal to the top age group competitor.

The winner will be the team with the highest total of the top eight scores for each team.

An interstate team challenge shall be conducted at the Age Championships. It will be decided on the basis of converting the scores of the No. 1 teams to a percentage (the top team in each discipline being 100%) and then adding the four discipline percentages together.

The State or Alliance with the highest total percentage will be the winner.

5.6 National “Clubs” Championships
The Levels component of this competition can no longer be utilised as a qualifying competition for the Australian Championships.

5.6.1 Competition Events
Individual Trampoline, Double-Mini Trampoline & Tumbling.

No Synchronised Trampoline will be contested as part of the National Club Levels Championship, as this is not a discipline of the “Trampoline Gymnastics Levels System” and due to the increased bias in points towards Trampoline Discipline Clubs over Tumbling/DMT oriented Clubs.

• Level 9 & 10 - 1st, 2nd & 3rd each gender

5.6.3 Club Team Competition Rules
The club team scores will be calculated from the preliminary competition results only.

Only athletes who have successfully achieved the minimum DD requirement for the level they are competing in can receive points for their club. For team points calculations only, if an athlete has not met the minimum DD requirements, then all athletes placed below the athlete at fault move up one placing, and the appropriate team points are allocated to their clubs.

The first placing, that has met minimum DD requirements, of each event after the preliminary competition will receive 10 points.

2nd place to 10th place will receive 9 points to 1 point respective of their preliminary placing.

Only the club’s highest placed athlete’s score will count for the club score in each event.

A club’s best performing athlete’s points for each event is added together to obtain the club score with the following allowances:
• 27 best of the 36 possible events count towards the Overall Champion Title.
• 9 best of the 12 possible events count towards each of the Discipline Champion Titles.
• 5 best of the 6 possible events count towards each of the Levels Champion Club Titles.
• The club with the highest score is the winner.
In the case of a tie, a tie-breaker rule will be applied.
- In the case of a tie, the club with results from the most number of different disciplines for the particular award being contested is the winner.
- If clubs are still tied at this point, then the club with the most number of counting points for the particular award being contested is the winner.

A maximum score can be achieved of
- 270 points for the Overall Champion Club Title
- 90 points for each of the Discipline Champion Club Titles
- 50 points for each of Levels 4, 5, 6 and 7 Champion Clubs
- 100 points for the *Elite Levels* Champion Club (i.e.: 2x50 pts max)

5.6.4 **Generic Discipline Rules – Athlete Level**

A minimum of Level 3 must be achieved by close of entries and have been recorded on the National database at Gymnastics Australia for eligibility to compete.

Athletes in individual events must compete in the level passed and recognised by Gymnastics Australia, or may voluntarily upgrade one (1) level to compete. Once an athlete voluntarily upgrades in an individual event to compete, then all subsequent national competitions must be contested in that level, unless an official application for downgrading due to special circumstance is submitted and accepted by the State & National Association. All levels must be processed with Gymnastics Australia by entries close.

All levels within each discipline shall have minimum and maximum difficulty requirements for the qualifying (prelims) rounds. Maximum DD requirements will apply for finals.

The National Trampoline Commission will monitor all qualifying, State Championships and National Championships to determine an athlete’s minimum level to compete at the National Clubs, if an athlete has met the requirements for levels above that recorded for that athlete, then they will not be allowed to compete at the recorded level.

E.g.: If a club has only processed Level 4 for an athlete, and the athlete has demonstrated Trampoline 2<sup>nd</sup> voluntary routine score & DD, or DMT prelim score & DD, or Tumbling prelim score & DD of Level 5 or above during the calendar year of the National Clubs, then the athlete will not be allowed to compete Level 4.

5.6.5 **Minimum & Maximum Degree of Difficulty Requirements**

*For completed routines or passes that do not reach the minimum difficulty requirement the following rule shall be applied by the Chief Referee.* The imposed penalty for not meeting the minimum difficulty for the routine or pass shall be equivalent to the shortfall between the difficulty awarded and the minimum required and deducted from each execution judges’ execution score of the routine/pass. EG: Athlete A performs a 2.1 voluntary in an event with a minimum requirement of 2.3, then the penalty of 0.2 shall be deducted from each execution judges’ score.

*For completed routines or passes that exceed the maximum difficulty requirement the following rule shall be applied by the Routine Judge.* The imposed penalty for exceeding the maximum difficulty requirement for a routine or pass shall be the reducing of the difficulty to meet the maximum allowed. EG Athlete B performs a 2.5 voluntary in an event with a maximum requirement of 2.3, then the 0.2 excess shall be deducted from the difficulty performed, awarding 2.3 difficulty for the performance by the routine judges.
• Level 8, 9-10 have unlimited DD in Finals.
• There will be no minimum DD requirements on final round routines or passes.
